Marwadi University, Rajkot – B.Tech. Computer Science and Engineering Expected 2026

EXPERIENCE

Fullstack Developer Dec 2024 - May 2025

TMS Groups Gurugram

- Engineered and deployed on TMS Server, an automated payroll system using **NextJs** and **MongoDB**, reducing processing time by 40% and eliminating 95% of manual calculation errors.
- Designed and implemented an employee time-tracking solution that increased accuracy of billable hours by 30% and reduced payroll processing time from **3 days** to **4 hours** per cycle.
- Facilitated the digital transformation of TMS Groups by implementing a fully responsive Next.js website, resulting in a **75%** surge in online inquiries within 3 months of launch.

Frontend Developer May 2024 - July 2024

Lieferando Remote

- Revamped the core interface architecture, boosting **user engagement by 35%** and decreasing average navigation time by 22%.
- Reconstructed user workflows with a modular design system, leading to a **40% increase in task completion rate** and enhanced user satisfaction scores.
- Spearheaded UX enhancements that drove a **25% increase in user retention** and resulted in a **30% reduction in monthly support tickets**.

PROJECTS

Daily Pulse: *Python, Next.js, Node.js, MongoDB.* |  Mar 2025 - Apr 2025

- Architected a cutting-edge news verification platform that **programmatically** scrapes, cross-validates, and filters real-time headlines from a consortium of reputed global media outlets, reducing the risk of false news by **upto 70%**.
- Leveraged **Gemini AI** to algorithmically invalidate misinformation, ensuring semantic coherence, factual consistency of upto 97%, and source redundancy before publication.
- Achieved a **false-positive reduction rate of over 90%** using an ensemble-based AI verification pipeline combined with contextual news analysis.
- Formulated for **scalability and latency minimization**, the system asynchronously scrapes news with fault-tolerant architecture using modern concurrency paradigms, also improving speed **upto 1.5x**.

TECHNICAL SKILLS

- Frontend development:** React.js, Next.js, JavaScript, TypeScript, HTML, CSS, Tailwind CSS
- Backend Development:** Node.js, Express.js, RESTful APIs, Go
- UI/UX Design:** Figma, Responsive Design, UI Optimization, Component-Based Architecture, User-Centered Design
- Version Control and Collaboration:** Git, GitHub
- Tool:** Docker, Kubernetes, Postman, Vercel, MongoDB

CERTIFICATIONS

- DevOps Beginners to Advanced with Projects** | **Udemy** | May 2025
- AWS Cloud Essentials** | **Credly** | Aug 2024
- Python Data Structures** | **Coursera** | Aug 2023

ACHIEVEMENTS & RESPONSIBILITIES

- Outreach Member GDSC:** Selected from **200+** students to join an exclusive 25-member Code Club, working on **real-world projects** and helping others within the club.
- Student coordinator** of Deep Learning event.
- Workshop Host: **"Intro to Deep Learning"**, conducted a hands-on session attended by 80+ students, covering neural networks, backpropagation, and PyTorch basics.
- Core Member, **Cloud** and **DevOps** Bootcamp, helped design hands-on labs and solve technical queries during a 3-day cloud fundamentals workshop.
