Experience

SDE & AI
Sep 2026 - Present

BDA Technologies — *Remote*

- **Spearheaded** a 12 module **Business Operations** & **Workflow Automation** Platform, streamlining end-to-end workflows across marketing, lead intelligence, sales, onboarding, delivery, client success, referrals, and **BI reporting**.
- Formalized 5 role-based **operational domains** with granular **RBAC**, ownership controls, **escalation logic**, and business rule enforcement.
- **Operationalized** a 3-tier customer health engine (On Track/Intervention/At Risk) with data driven intervention workflows across the client lifecycle.
- Prototyped a **WhatsApp CRM** integration layer with real-time unreplied message detection, ownership tracking, and **automated escalation**; validated end-to-end on a test number.
- Unified 3 **reporting cadences** daily, weekly, and monthly across leads, appointments, sales, payments, revenue, community activity, and client health.

Fullstack Developer
Dec 2024 - Dec 2025

TMS Groups — *Gurugram*

- Developed secure **REST APIs**, **RBAC**, and automated payroll workflows, improving operational efficiency by **60%** and reducing processing time from **3 days** to **4 hours**.
- Integrated LLM powered **AI workflows** using prompt engineering, **N8N** and LangChain, reducing repetitive manual tasks by **50%** and improving workflow efficiency by **35%**.
- Leveraged **Next.js** App Router and reusable **React** components to unify payroll dashboards, reporting, and workflow interfaces across **10+** modules, reducing duplicated UI logic by **20%**.
- Implemented RAG-based **knowledge retrieval** with vector database integration, improving contextual response accuracy by **40%** and reducing information lookup time by **60%**.
- Containerized services with **Docker** and streamlined deployment workflows, reducing deployment time by **45%** and improving release reliability by **30%**.
- Orchestrated **Powershell** startup automation to automatically redeploy the payroll platform after system reboots, reducing downtime by **35%** and improving operational reliability.

Projects

AgentHUB: AI Agent Orchestration Platform: *Next.Js, Typescript, XYFlow, MCP, PostgreSQL* | May 2026 - Oct 2026

- Built a visual **multi-agent canvas** supporting **14 node** types, including **agent**, **supervisor**, **router**, **parallel**, **loop**, **HITL**, **sandbox**, **consensus**, and **critic workflows**.
- Harnessed **Next.js 16** App Router, **React 19**, and server-side **route handlers** to combine interactive **XYFlow** canvas state with real-time **SSE execution** streams, supporting **14** node types and live workflow telemetry.
- Established a **graph execution** runtime spanning **22 API** groups, with **state-machine execution**, **SSE telemetry**, **retries**, **cancellation**, **validation**, and **execution** replay.
- Enabled **500+** MCP servers and **2,500+** OpenAPI APIs through tool discovery, schema validation, API imports, and multi-stage tool composition.
- **Optimized** platform reliability with **multi-provider LLM routing**, **multimodal RAG**, **HITL safeguards**, **RBAC**, audit logging, and **630+** passing tests across **83** suites.

OpenRoll: AI Payroll Copilot: *Next.Js, Gemini AI, Typescript, MongoDB* | Sep 2024 - May 2026

- Optimized **React** components and **Next.js** pages through **memoization**, code splitting, and **server-side** data handling, reducing redundant client work by **15%** and improving page response time by **10%**.
- Integrated an AI Payroll Copilot using **Gemini AI**, function calling, and natural language workflows, reducing payroll information retrieval time by **70%** and improving efficiency by **40%**.
- Engineered secure **REST APIs**, **RBAC**, NextAuth, MongoDB, and **Surepass KYC** verification, improving onboarding efficiency by **60%** and supporting scalable enterprise operations.
- Automated EPF, ESIC, LWF, PT compliance, **PDF/Excel** reporting, and approval workflows, reducing manual compliance effort by **70%** while achieving **100%** calculation accuracy.

Technical Skills

- **AI Engineering**: AI Agents, RAG, MCP, LangGraph, Prompt Engineering, N8N
- **Frontend development**: React, Next.Js, JavaScript, TypeScript, Tailwind CSS
- **Backend Development**: Java, Node.Js, Restful APIs, Prisma, PostgreSQL, MongoDB, SSE
- **DevOps**: Docker, GitHub, GitHub Actions, Vagrant
- **Tool**: Zed, Hermes, Postman

Education

Marwadi University, Rajkot – B.Tech. Computer Science and Engineering Sep 2022 - Feb 2026

Certifications

- **DevOps Beginners** | **Udemy** | May 2025
- **AWS Cloud Essentials** | **Credly** | Aug 2024
- **Python Data Structures** | **Coursera** | Aug 2023
